■ Introduction :

Many archaeological sites in Syria still exposes to abuse and violations due to the ongoing war, insecurity and anarchy in many areas and towns. However, the ATPA in Al Jazeera Territory in northeast of Syria and through a team of archeologists continues to protect sites Which is under the control of Syrian democratic forces (SDF) and based on its moral, humanitarian, obligation Despite of lack of possibilities , difficulties and risks which experiencing it, ignoring difficulty of living conditions and road risks . this report is the second one after that published in 2016, where take up situation of excavated sites and its dig houses, quantity of confiscated materials, mounds that were used as sites on the front of fight and the violations and infractions that recorded against archaeological sites, in addition to the awareness, documenting and protection activities of the Authority. this report Highlights on the condition of archaeological sites in Al Jazireah Territory, attached with schedule contains name of sites.

As well as inscribe other sites documented for one time in 2017 , especially those located to the south of Ha-sakah as Al Hol, Arishah and Shadada, in addition to some archaeological sites in Al Balikh Basin and Euphrates valley region ..

fig 1 . Syrian map shows Al Jazeera Territory location

Situation of archaeological sites in Al Jazireah territory

Situation of archaeological sites in Al Jazireah territory :

fig 32 . Memory of People Magazine

fig 33 . Memory of People Magazine

fig 34 . Memory of People Magazine

Awareness lectures :

The ATPA gave over 27 lecture in many military and civil academy concerned with the history of Syria and how to protect its heritage during the conflict ..

fig 35 . Awareness lectures

■ Conclusion :

safeguarding of archaeological sites and monumental during the conflicts have to be front of priorities , because crumbling of any site represents cataclysm for humanity legacy forever ,that lead us to realize the importance of the convention which issued by UNESCO in conference of Paris in 1972

During 7 years of sectarian war in Syria and despite of difficulty of conditions, we are working as possible as to safeguarding the heritage in northeast of Syria, we realize that is belong to all of humanity, ignoring the risks and difficulties .
